SVC 7PE

Before first use, please read all instructions contained in this user's manual carefully, even if you are already familiar with using similar products. Only use this product in accordance with the instructions described in the user's manual. Keep the user's manual in a safe place where it can be easily retrieved for future use.

Save the original packaging, including the internal packing material, warranty card and proof of purchase receipt, at least for the duration of the warranty. If you need to ship this product, pack it in the original cardboard box to ensure maximum protection during shipping or transport (e.g. when moving or when you need to send this product for repair).

IMPORTANT SAFETY NOTICE

- 1) Carefully unpack the product and take care not to throw away any part of the packaging before you find all the parts of the product.
- 2) This appliance may be used by children 8 years of age and older and by persons with physical or mental impairments or by inexperienced persons, if they are properly supervised or have been informed about how to use this product in a safe manner and understand the potential dangers. Children must not play with the appliance. Cleaning and maintenance performed by the user must not be performed by unsupervised children. Keep the appliance and its accessories out of reach of children that are younger than 8 years of age.
- 3) Before connecting this product to the socket outlet, make sure the voltage stated on the label of the product corresponds to the voltage in your wall socket.
- 4) Never use accessories, which have not been supplied with this product or which are not designed for this product.
- 5) Do not place the power cord near hot places or sharp objects. Do not place heavy objects on the power cord. Position the cord so that it will not be stepped on or tripped over. Make sure the power cord is not touching a hot surface.
- 6) If the power cord of the product is damaged have it repaired by an authorised service technician to prevent causing a dangerous situation. It is forbidden to use the product if it has a damaged power cord or plug.
- 7) Do not disconnect the power cord from the wall outlet by pulling the cord.
- 8) In no case should you attempt to repair the unit yourself, do not make any amendments to it - danger of electric shock! Entrust all repairs and adjustments to a specialised company/service. Failure to do so will expose you to a danger of voiding the warranty policy.
- 9) Never use the product if you have wet hands or feet.
- 10) Only store and use the product away from flammable or volatile materials and solutions.
- 11) This product is designed for household use. Do not use it in industrial surroundings or outdoors!
- 12) Do not use the product for purposes other than those intended.
- 13) Do not spray the product with water or any other liquid. Do not pour water or any other liquids into the product. Do not submerge the product in water or in any other liquid.
- 14) Make sure the product does not come in contact with water. Never use the product near a bathtub, wash basin or any other containers filled with water.
- 15) If you are not using your machine, disconnect the power cord from the socket.
- 16) If you will not be using the product, turn it off and disconnect the power cord from the wall outlet. Prior to cleaning, proceed in the same manner.
- 17) Never leave the product switched on without supervision.
- 18) In order to avoid deformation or a fire in the plastic components of the vacuum cleaner, do not expose the vacuum to direct sunlight, do not place it close to heaters, open fires or other sources of heat and do not leave the vacuum cleaner operating for too long, if the air inflow is blocked.
- 19) If the product is being used, do not block the air inflow and outflow openings. Blocked air vents can cause overheating and motor damage.
- 20) Vacuuming the below mentioned objects can damage your product or cause injuries to the operating person:
 - wet floor, water or other liquids
 - any type of sharp objects such as broken glass or ceramics, needles, pins, etc.
 - burning cigarettes, or smouldering pieces, matches or any other flammable or volatile liquids (e.g. gasoline, paint thinners, etc.)
 - flour, cement, plaster (i.e. dust from holes drilled in walls)
- 21) In order to avoid damaging furniture or injuries to persons, hold the cord in your hands as it winds up.
- 22) Do not vacuum larger pieces of paper or plastic bags. They may easily clog the pipe or hose. In case the vacuum becomes clogged for any reason, turn it off by removing it from the electric socket and clean the pipe or hose.
- 23) In order to avoid damage to the hose, do not step on it or forcefully bend it. Do not use the vacuum if the hose is bent or damaged in any other way.
- 24) Do not move over the power cord with the vacuum cleaner.

Vacuum Cleaner

SVC 7PE

- 25) Never use the vacuum cleaner without having inserted the dust bag, the inflow micro-filter or the outflow H.E.P.A. filter.
- 26) Do not place the vacuuming hose, inlet nozzle or vacuuming accessories near to your eyes or ears.
- 27) Vacuuming of some types of floors or floor surfaces can create a static electricity charge, which is not dangerous for the user.

The manufacturer is not responsible for damages caused by incorrect use of this product or its accessories. Such damages include food spoilage, injuries, burns, scalding, fire, etc.

DESCRIPTION

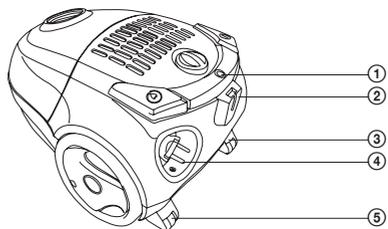

A

- ① START/STOP button
- ② Cover of the outflow H.E.P.A. filter
- ③ Vacuum hose connection hole
- ④ Lid clip
- ⑤ Motor power output control
- ⑥ Cord winding button
- ⑦ Rubber wheel
- ⑧ Handle
- ⑨ Sliding knob for air suction
- ⑩ Telescopic tube
- ⑪ Clip for the telescopic tube
- ⑫ Floor inlet nozzle
- ⑬ Flap position for vacuuming carpets
- ⑭ Flap position for vacuuming hard (smooth) floors
- ⑮ Hose
- ⑯ Accessory holder
- ⑰ Stopper for the vertical parking position
- ⑱ Stopper for the horizontal parking position
- ⑲ Clip
- ⑳ Hose end

B

- ① Full dust bag indicator
- ② Horizontal parking position
- ③ Stabilising travel wheel
- ④ Power cord
- ⑤ Stabilising travel wheel

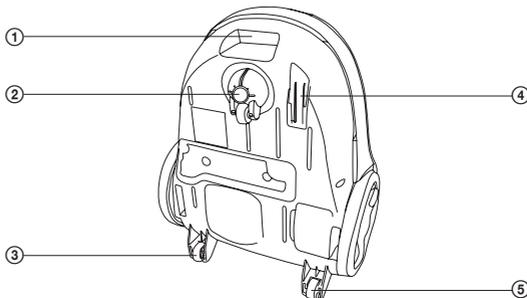

EN-5

Vacuum Cleaner

SVC 7PE

C

- ① Carry handle
- ② Front wheel mechanism
- ③ Stabilising travel wheel
- ④ Vertical parking position
- ⑤ Stabilising travel wheel

ASSEMBLY

Inserting the hose into the air suction hole on the vacuum cleaner:

Press both the safety buttons on the end of the hose end and insert the hose end into the air suction opening on the vacuum cleaner until you hear a „click“. The hose is now secured in correct position.

Attach the holder to the telescopic tube:

Make sure to place the holder with the hose on the wider part of the telescopic tube.

Attach the floor inlet nozzle to the telescopic tube:

Make sure the floor nozzle is attached the narrower part of the telescopic tube.

Adjust the length of the telescopic tube:

Adjust the length of the telescopic tube as follows: Move and hold the button on the tube forward as shown by the arrows and adjust the length of the tube as required. Release the button and move the tube slightly forward until you hear a „click“. The telescopic tube is now securely fixed in position.

USING YOUR VACUUM CLEANER

Connecting your vacuum cleaner to the electrical power grid

Pull the plug attached to the power cord out from the vacuum cleaner until the desired length of the cord is out of the product. Insert the plug into the socket.

Caution:

Yellow marking on the power cord warns that the power cord is close to its end. Do not pull the cord further than the red marking.

Adjusting the floor inlet nozzle according to the floor surface

You may set the inlet nozzle according to the floor surface by adjusting the inlet flap:

- If you want to vacuum carpets, close the bristles of the inlet inside the inlet nozzle, by turning the flap accordingly.
- If you want to vacuum hard and smooth surfaces, move the bristles out of the nozzle, by turning the flap accordingly.

Turning your vacuum cleaner on and off

To switch your machine on or off, press the START / STOP button on the vacuum cleaner body.

Adjusting the suction strength

The suction strength may be adjusted by moving the rider on the vacuum cleaner body (small range) or by the moveable rider on the hose handler.

Tips

- Use the maximum suction strength when vacuuming carpets or floors with a hard surface. Use the reduced strength when vacuuming upholstery, window curtains, etc.
- If the hose holder becomes blocked when vacuuming, disconnect it from the telescopic tube and also disconnect the hose from the vacuum cleaner body. Then place the holder inside the suction hole on the vacuum cleaner body and vacuum the stuck dirt out.

Temporary interruption of the vacuuming process

If you want to stop vacuuming for a short time, you may use one of the parking positions:

- for the horizontal parking position use the stopper at the end of the floor nozzle,
- for the vertical parking position use the stopper on the telescopic tube.

Note:

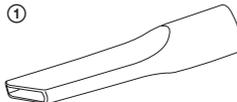

Do not move the vacuum cleaner from place to place if the hose is in the parked position! It may break off or the lugs for the floor nozzle or telescopic tube may break off.

USING YOUR ACCESSORIES

D

- ① Slot nozzle for vacuuming in hard to reach places (e.g. windows, corners, book shelves, areas between mattresses, upholstery, etc.)
- ② Upholstery nozzle
- ③ Brush nozzle (by turning the brush part it is possible to use it for vacuuming hard to reach places)

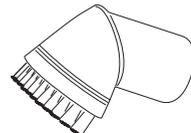

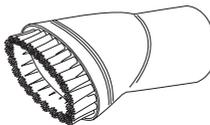

①

②

③

Tip:

If during vacuuming you use an accessory very often, you may attach it to the special holder on the telescopic tube.

Ending the vacuuming process

When you finish vacuuming, switch the vacuum cleaner off by pressing the START / STOP button and then disconnect the power plug from the socket.

To wind the power cord back to the vacuum cleaner, press and hold the winding button with one hand. Hold the cord with your other hand to protect the vacuum cleaner input area from damage.

**Tip:**

If the winding process stops and part of the power cord is still outside, release the winding button and pull the cord out again by about 50 cm and press the winding button again and repeat the winding process.

Carrying your vacuum cleaner

It is possible to hold and carry the vacuum by the handle.

STORAGE OF VACUUM CLEANER

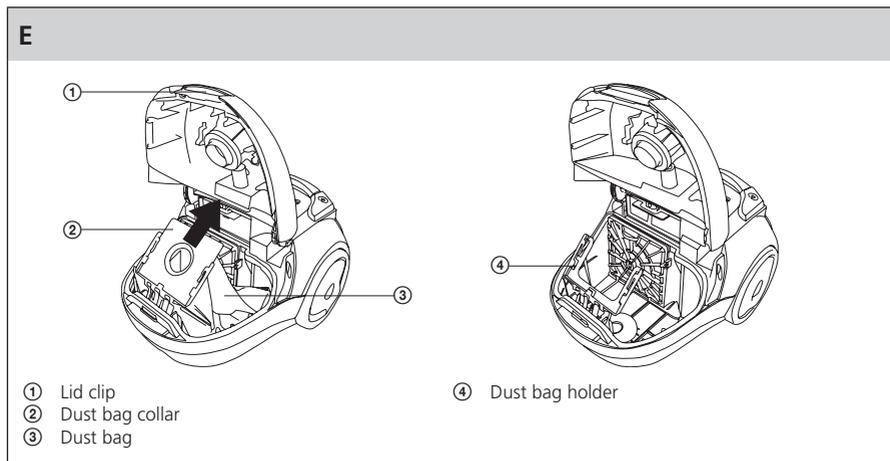

Before storage you can disassemble your product to each individual part or you can store it assembled with the telescopic tube stored in one of the parking positions.

CLEANING AND MAINTENANCE**Caution:**

Before cleaning disconnect this product from the power source.

Changing the dust bag

Replace the dust bag as soon as the full dust bag warning light comes on; otherwise the air flow and the suction strength will be reduced.

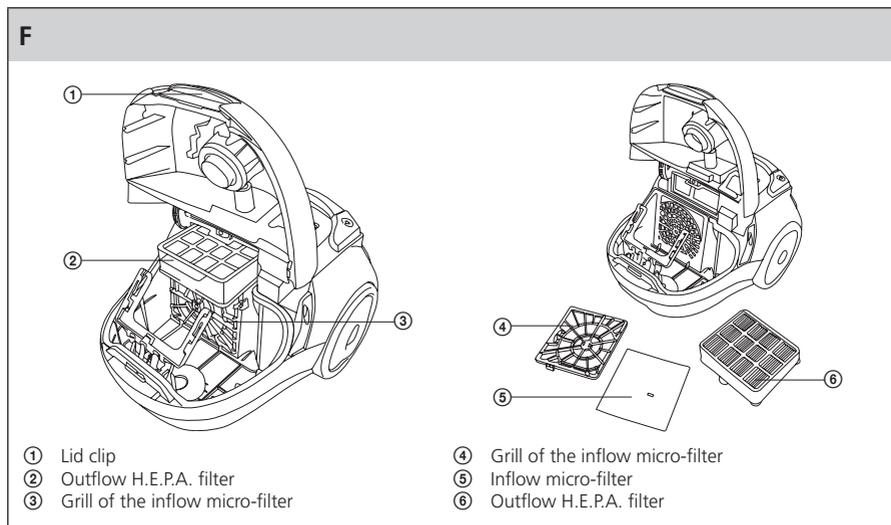

Vacuum Cleaner

SVC 7PE

EN

- 1) By pressing the clip and at the same time pulling it upwards open the vacuum cleaner filter area.
- 2) By pulling on the collar of the dust bag in the direction of the arrow, remove it from the plastic holder and insert a new bag.
- 3) Close the lid of the vacuum cleaner, until you hear a click.

Changing and cleaning the outflow H.E.P.A. filter and the inflow micro-filter

- 1) By pressing the clip and at the same time pulling it upwards open the vacuum cleaner filter area.
- 2) By pulling on the collar of the dust bag in the direction of the arrow, remove it from the plastic holder to make room for the removal of the filter.
- 3) Pull the inflow micro-filter grill towards yourself and take it out.
- 4) Pull to remove the outflow H.E.P.A. filter and take it out.
- 5) If the filters are slightly soiled it is possible to wash both of them under running lukewarm water. In the case of heavy soiling replace it with a new one.
- 6) Place the outflow H.E.P.A. filter and the inflow micro-filter back into their position.
- 7) Return the dust bag.
- 8) Close the lid of the vacuum cleaner, until you hear a click.

Note:

Never insert the filters back into the vacuum cleaner if they are wet or damp! Always wait until they are thoroughly dry.

Cleaning your vacuum cleaner

To clean the outside parts of the product use a fine cloth dipped in lukewarm water. Do not use aggressive cleaning agents, paint thinners or solvents. Using these solutions could damage the surface of the product.

TROUBLESHOOTING:

Before you decide to contact an authorized service centre, please read these following tips in the troubleshooting chart:

Problem	Possible cause	Recommended action
The engine will not start	<ul style="list-style-type: none"> - The power cord is not firmly inserted in the socket - The wall power outlet is damaged - The vacuum cleaner is not switched on 	<ul style="list-style-type: none"> - Insert the plug firmly into the power outlet - Inspect the power outlet - Turn the product on
The suction output is insufficient	<ul style="list-style-type: none"> - The product is clogged - The dust filter needs cleaning - The filter is clogged 	<ul style="list-style-type: none"> - Remove the blockage or foreign object - Clean the dust filter - Clean the filter
The power cord is not wound in completely	The power cord may have slipped down from the winding pulley during winding.	Hold the power cord during the winding. Apply slight tension (by pulling the power cord back) to the power cord during the winding process
The power cord cannot be pulled out	The power cord is wound up incorrectly	Press the winding button and try to rewind the power cord again
The speed control is not working	The product is broken down	Have the product repaired by technician. (only by a qualified technician)
The power cord starts to wind in when you do not required.	The winding mechanism has broken down	Have the product repaired by technician (only by a qualified technician)

TECHNICAL SPECIFICATIONS

Nominal voltage	220 - 240 V AC
Nominal frequency.....	50 Hz
Rated power input.....	1550 W
Maximum power input	1700 W
Safety class (with regard to electric shock protection).....	II
Noise level	81 dB(A)
Length of power cord	6 m
Operational range.....	9 m
Dust bag capacity	2.5 l
Dimensions (length x width x height)	390 x 315 x 215 mm
Weight of the vacuum cleaner	5.2 kg
Weight of the vacuum cleaner including accessories	8 kg

The declared noise emission level for this appliance is 81 dB(A), which represents level A of the acoustic power relative to the reference acoustic power of 1 pW.

Amendments to text and technical parameters are reserved.

PRODUCT INFORMATION SHEET

Name/trademark	SENCOR
Model identification number	SVC 7PE
Energy efficiency class *	F
Annual power consumption (in kWh)**	53
Carpet cleaning efficiency class	C
Hard floor cleaning efficiency class	A
Vacuum cleaner dust emission class	A
Level of acoustic power (dB(A))	81
Rated power input (W)	1550

* Class A (highest efficiency class, low power consumption) to Class G (lowest efficiency class, high power consumption)

** Approximate annual power consumption (in kWh per year) based on 50 cleaning cycles. Actual power consumption will depend on how the appliance is used.

The values are determined pursuant to (EU) No. 665/2013.

INSTRUCTIONS AND INFORMATION REGARDING THE DISPOSAL OF USED PACKAGING MATERIALS

Dispose of packaging material at a public waste disposal site.

DISPOSAL OF USED ELECTRICAL AND ELECTRONIC APPLIANCES

The meaning of the symbol on the product, its accessory or packaging indicates that this product shall not be treated as household waste. Please, dispose of this product at your applicable collection point for the recycling of electrical & electronic equipment waste. Alternatively in some states of the European Union or other European states you may return your products to your local retailer when buying an equivalent new product. The correct disposal of this product will help save valuable natural resources and help in preventing the potential negative impact on the environment and human health, which could be caused as a result of improper liquidation of waste. Please ask your local authorities or the nearest waste collection centre for further details. The improper disposal of this type of waste may fall subject to national regulations for fines.

For business entities in the European Union

If you wish to dispose of an electrical or electronic device, request the necessary information from your seller or supplier.

Disposal in other countries outside the European Union

If you wish to dispose of this product, request the necessary information about the correct disposal method from local government departments or from your seller.

This product meets all the basic EU regulation requirements that relate to it.

Changes to the text, design and technical specifications may occur without prior notice and we reserve the right to make these changes.
